

## Miguel Ângelo Batista Frederico

20 years of professional experience as Architect and Project Manager, Managing local architectural design teams or international teams in Major Developments such as, Shopping centers, High-end Residential and Hospitality.

Large experience in site coordination, quality control from early stage until finishes and overall construction, always focus on high quality design and cost control.

Impeccable technical and computer skills with advanced knowledge of Auto CAD, Microsoft Office, Adobe, 3D models in sketchup and more recently in REVIT.

My attention to detail and excellent problem-solving skills ensure that every project I work on is done accurately and to the highest possible standard. I am comfortable working as part of a team but also have the ability to take an authoritative role when the situation arises.
